First-ever Industrialized Wood-Based Construction Conference Set for October 2018**

(Boston, MA) -- There is a \$1.6 trillion opportunity for construction disruptors in the U.S., and the first-ever trade event to bring the world's leading offsite, wood-based, and automated construction innovators is here: The Industrialized Wood-Based Construction Conference, featuring 42 speakers and 50+ exhibitors, is scheduled for October 24-26 at the Seaport Hotel & World Trade Center in Boston, Mass.

Open to architects, developers, engineers, contractors, home builders, software developers, machinery manufacturers, lumber, engineered lumber and mass timber producers, and other industry professionals interested in fast, affordable, high-quality construction, IWBC will provide attendees with comprehensive information on new business models, technologies, automation, and supply chain innovations already revolutionizing construction productivity around the globe. Included in this focus: all fully integrated offsite solutions, including mass timber, panelized, modular and volumetric construction, as well as BIM/3D CAD.

Complete information on the conference and registration details may be found at www.iwbcc.com. Like us on Facebook at [IWBC Conference](https://www.facebook.com/IWBCConference), and on twitter at [@IWBCC](https://twitter.com/IWBCC).

The Industrialized Wood-Based Construction Conference is produced and managed by Forest Economic Advisors LLC, the global forest industry's leading source for independent analysis and forecasts. For more information, please visit www.getfea.com.
